Smart Tender – Procurement of AP/RI via E-tendering Platform

The arrangement for the procurement of Authorized Persons (“AP”) / Registered Inspectors (“RI”) via the e-tendering platform (“ET”) have been made starting from the end of May 2019. The first case for the procurement of AP/RI was already uploaded to the ET on 24 June 2019 that the registered AP/RIs were notified by the e-alert few days ago. The number of cases for procurement of AP/RI via ET will subsequently be increased onwards. By taking this opportunity, we encourage the AP/RIs to participate in the upcoming tender exercise actively so that the building owners have more offers for consideration. For those who has not yet registered in the ET but with intention for bidding, please complete the on-line registration procedure right now and you may otherwise miss the boat at last. Thanks for your attention.
